up, and all are urged to be present.

TEACHERS TO MEET HERE.

The Eighth Congressional District
Teachers Association will meet in
Lancaster October 26th and 27th.
Prof Mannix who is president of the
organization, tell The Record there
will be a good attendance and the pro-
grams of great interest to both teach-
ers and the public. As quite a number
will be present, the citizens should
and doubtless will, do all in their power
to make the visit pleasant for the
wielders of the peachtree limb. Fur-
ther notice will be given in these columns.

TEACHERS TO MEET HERE.

The Jewish Rosh Hashanah or new year
and the Jewish festivites fall upon the
20th and 21 of Sept and the Jewish
Yom Kippur or fast day upon Sept 29
which day will be occupied with fast-
ing and prayer. These sacred holidays
of the Jewish people will be celebrated
throughout the entire world by
these people. The store of H Patterson,
of this city will be closed on these
three holidays all of the 1st two days
and until 6 o'clock on the 29th. Mr
H Patterson and family will attend
services in the Jewish temple at Cin-
cinnati.

CREMATED.

Nathan Taylor and Bud Kalser, two
farmers residing near Buckeye, were
burned to death Sunday night in house
in which they were sleeping. There
was no one in the building but the
men, and the origin of the fire is un-
known. The house was completely
consumed and the bodies burned so
badly that the were distinguished only
by the size of the bones. Kaiser was
a single man, but Taylor leaves a
family. Inquest was to have been held
yesterday, but was postponed until
Saturday. A great many witnesses
have been summoned.

A HANDSOME HOME.

The residence of Mr John E Stormes,
which has been undergoing a complete
rebuilding, has been transformed into
not only a beauty, but a model for
convenience and comfort. A handsome
veranda adds materially to the exterior,
while the interior is as handsome and
complete as skilled workmen can make it.
The entire building will be heated by
steam, while a perfect system of
water works has been installed. The
Record congratulates Mr Stormes both
on his good judgement and public enter-
prise. There are other residences in
Lancaster which could be greatly
improved at a small outlay.

MINISTERS ASSIGNED.

At the annual Conference, held in
Winchester last week, Rev J H Williams
was assigned to the Lancaster
church, and the present pastor, Rev
B M Nelson sent to a church in the
southern part of the state. Rev F D
Palmer is assigned to the Preachers-
ville church, Rev W D Wilbur to Bry-
antsville and Burgin. Rev C H Greer,
formerly of this city, is made Mis-
sionary in Cuba and Rev F M Hill Con-
ference Missionary Evangelist. Dr
E H Pearce, upon the unanimous re-
quest of the members, is returned to
the Danville church.

THE HEMP CROP.

The hemp crop, which is now being
cut, is decidedly better than last
year, both as to acreage and quality.
The yield will be heavy with the result
that farmers are jubilant, most of
whom sold their crops at from \$6.00 to
\$6.25 per 112 pounds. This price,
which is prevailing is the best paid for
Kentucky hemp in 20 years. Most
farmers are using machines for cutting
while others are paying from \$3.50 to
\$4.00 per acre to have their crops cut
by hand. Some fields are slightly
damaged by rape the wet weather con-
tributing to the growth of the trouble
some weed. Mr Earl Ferguson re-
turned recently from a ride of 92 miles
through Bourbon, Nicholas, Robinson
and Mason counties, where he bought
125 head of stock hogs. Mr Ferguson,
who has 60 head of feeding cattle has
recently added 36 more to the bunch
and will feed the entire lot for the
Christmas market. The stock hogs
cost 6 cents per pound. — Bourbon

WOULD PAY WELL.

If some one with a little cash to
invest will build a lot of flats in Lan-
caster, they will prove to be the best
investment to be found in this section
of the country. Few people want
houses with a ten acre lot in front,
and property with modern conveniences
and no yards rents much quicker than
that with a small farm adjoining. If
some one will erect a building with
five or six suites of flats, and run a
first dining room in connection therewith,
he can get most any price asked.

SEVERAL SUITABLE LOTS NEAR THE PUBLIC SQUARE.

There are several suitable lots near
the Public Square which can be
bought for a reasonable price, and
some party will have good thing if will
only erect a building of this kind.

Owing to scarcity of cooks, a great
many people are going to take their
meals at the hotels and boarding
houses this winter, and, if flats
were obtainable, they would give
up their residences altogether.

TO PREVENT HOUSEBURN.

W. B. Hawkins, a prominent farmer
of Fayette county, and leader of the
Burley Tobacco Growers' Association,
has the following in the Lexington
Observer: "House burn, or rotten to
bacco, is the worst of all tobacco. How
to prevent that is the question. When
the weather conditions are such
that the stalks get sticky, when the
mould gets in everything in the house
when the air is heavy and still damp
and foggy, look out for houseburn. Be
very careful that no wet tobacco
is hung in the barn, and as soon as you
have any suspicious, even if it is begin-
ning to strut, it is time to be up and
doing by artificial means what the
north or west winds fail to do by
natural means. My remedy is to get up
a dry current of air at once, and you
will be surprised how quickly it can be
done. Leave your barn open and fire.
Do not make one or two big fires, but
make twenty or thirty little fires all
over the barn floor not bigger than
your hat, made of charcoal or wood
that will burn with a blaze, you will
run the house out horse, foot and
dragon in twelve hours. Remember
an ounce of prevention is worth a
pound of cure."

The daughters of the late Herr Krupp, the largest gun maker of Germany, who are the richest women in that nation, are soon to be married, which is right and proper. In company with their mother they went to Berlin a few days ago and bought their wedding trousseaus. What did they, the richest persons in the empire, pay for their trousseaus? Two hundred and fifty each! Now there's the kind of women to have around.

At the annual conference of a Pennsylvania church, there was considerable discussion because one of the ministers has shown a predilection for kissing the comely girls of his congregation. If ministers are denied all such little prerogatives, there will be still further discussion of the cause of so few young men entering the ministerial profession.

A Chicago woman doctor started the Promotion of Health club of that city recently by advocating the theory that we keep our selves too clean. She believes that if we shun bathing and eat more dirt our health will be improved. Come to think of it, it is the dirty-faced babies that are the huskiest.

On a ten-dollar wager, a Pennsylvania man drank eight gallons of beer in 25 minutes, 32 minutes under the time limit. That is gross intemperance. Eight gallons of beer ought to last a man a whole day, especially in cool weather.

The Shah of Persia declared that Buffalo Bill's Wild West show was much better than grand opera. If this is all that can be said for Buffalo Bill's show it must have deteriorated in the last few years.

Some fellow wrote Jim Allen, of the Cynthiana Democrat, asking a remedy for a depressed feeling. Jim told him to swallow a cake of yeast and sit in a big pan back of the kitchen stove over night.

President Roosevelt has warned the Cubans that they must cease fighting and be good, or they will be given a good thrashing. When it comes to delivering the goods, Teddy is about the biggest truck in the business.

A Patterson (N. J.) woman has confessed to having seven husbands. Now if she will divide her cold feet equally among her bubbles this winter, those fellows will be playing in luck, sure.

New Orleans has a law providing that every tank must be screened. Wouldn't it be a funny sight here in Kentucky to see every tank screened?

The New York police have a theory that every man has his double. If you meet yours, congratulate him or commiserate with him.

The match bill alone of some cigarette smokers would be enormous if the drug stores and hotels were not so accomodating.

What has become of the girl who used to clip an end off a fellow's siltie for a piece for her crazy quilt?

The summer girl is getting in some fine work these remaining days of the season.

CASTORIA For Infants and Children. The Kind You Have Always Bought

Bears the signature of *Chat H Fletcher*

Kingsbury, Tenn.

Waving of flags and volleys bidding us adieu and farewell, marked the leaving of our steamer (dead old "Columbia") from New York, which gradually drew away on her long journey. It was only a short time till each of us turned our minds to our surroundings, and incidents of life on the sea and prepared to enjoy the conditions whatever they might be. All ostentation was soon supplanted by genuiness, for strange inward feelings had taken possession, a view of white, serious faces had taken the place of smiles and complacency, and the continual blow of the fog horns added to the misery of the afflicted. Mr. So-and-so or Miss or even Mrs. was on the third day out, Uncle James, Cousin Briggs or father Johnson, and the meeting of the table staved was looked forward by all as the main event of the day. The dignified ministers had even become confirmed gourmands, and the meeting of a state-like old man in his pajamas returning from his morning plunge, was as common a sight as the lover seated in the starlight with pictures in his fancies of the mind of the future.

In all conversation it has been a fact that I have rated with much pleasure how frequently the gentle who conceived the plan of giving us this delightful trip, have been spoken of and continued thanks have been expressed and we shall always be grateful to (our guide) Mr. Johnson especially, for being so lovely to us in every way that he could add to our pleasure.

One, the greatest life saving event, has been reported to me by a young scout travelling alone, who through the generosity of the genial guide gave a priest suffering from homesickness or seasickness, a drink of "Green River" whiskey, which immediately restored him from a sedate mortal to a frisky youth. Our landing at Greenwich, Scotland, was a great relief to those who continued ill all the way, and all happy to see land again, also to begin our tour in the "Auld Country" of beautiful old Castles, Palaces, and the mountains of marvelous beauty, known as Trossachs, in Scotland, Alps in Switzerland and Black Forest in Germany. The magnificent "Art Galleries" that France and England are so noted, impressed me wonderfully. Each place we visited, people treated us royally and always entertained us with a dinner dance reception. The New York papers, I must say, gave the Frenchmen a harder blow than they really deserved and not one of our party roared them quite so bad, but when we think of the mostly were England, Scotland, Switzerland and Belgium: England for its supreme elegance, and aristocratic manner that reigns among them; Scotland and Switzerland for their beautiful scenery, and Belgium for its nobility and self-protected freedom. Our stay in Belgium being too short to see everything, but the few points of interest we did see were the "Spanish" prison and Weirz Art Gallery, that impressed us deeply. To see the Gallery, you would not wonder that Weirz went crazy, and it seems impossible such a man ever lived that his mind so drifted to paint pictures that differ so entirely in imagination and sad subjects.

From Brussels to Anwerp and a drive around the city was ended at the dock to board the dear old steamer, "Finland" for New York. All were happy that we had turned homeward despite of all the pleasures, that absorbed our minds only for the time being. The "Finland" being a much larger vessel than the "Columbia," of course more people were on board, and new friends to make. We found a great deal of pleasure in all, and especially Miss Jennie Manhelme, of the College of Music of Cincinnati, Directress of the Elocution, Literature and Dramatic Art Department. She gave us one of her choice selections, "Merely Mary Ann" (on Friday evening before we landed,) which was fine, and could not have been more appreciated by any audience, than the one on board. The Captain gave a farewell dance, on Saturday evening, and the upper deck was illuminated with American flags red, and white, and blue electric lights, and a good band, all enjoyed greatly until the wee hours.

Thence our landing in New York and saying "Goodbye" to our new friends, and then journey southward for our old "Kentucky Home." I shall always be very grateful to friends who assisted me in winning this glorious trip, and remember it as the event of my life. Mary E. Lear. 17-47

Much Typhoid

Typhoid fever is raging all over Kentucky, and there have been many deaths. We have read our exchanges closely and find the trouble is caused entirely from some local causes. Harrodsburg is undergoing the worst siege, and the D-mat say:

"It is estimated by the physicians of this city that there are now fully two hundred cases of typhoid fever in the city of Harrodsburg and Mercer county, but thus far the death rate has been very small. Most of the cases are in a mild form, however, and the physicians think the disease has about spent its force. With the proper nursing and sanitary restrictions a deal of this dreadful disease could be prevented. It is an old proverb, but nevertheless a true one, that 'ith breeds disease.' There has been a great deal of speculation as to the cause of the present epidemic of fever. It is the contention of many that it was brought about by drinking the water supplied at the fair grounds during the fair. The Democrat has interviewed several of the physicians in regard to the matter, and while they would not state positively that the water was responsible for the enormous amount of sickness, yet they say that it is probable that it had much to do with it. The water was procured from old Gor Spring which is in close touch with the town creek. It is said that the water from the creek had overflowed and that instead of getting the water from the spring it was really the creek water. While there are perhaps some few persons with the fever who did not attend the fair and drink the water, the majority of them did. Mercer county, however, is only one among the many places throughout the country which is just now in the grasp of this disease.

From almost every section of the universe come reports of the presence of fever in more or less violent form. A traveling man in the city yesterday said that almost every town and city

in the state has had a case of typhoid fever. The summer will make anxious.

Though now we cannot skate; Upon the ice that didn't form. Well cut the figure 8. —N. Y. Sun.
